

Configuration structure of King Richard III

The configuration structure below displays horizontally the number of the speech, the speaker, and the graphic symbols which denote the state of the dramatis personae:

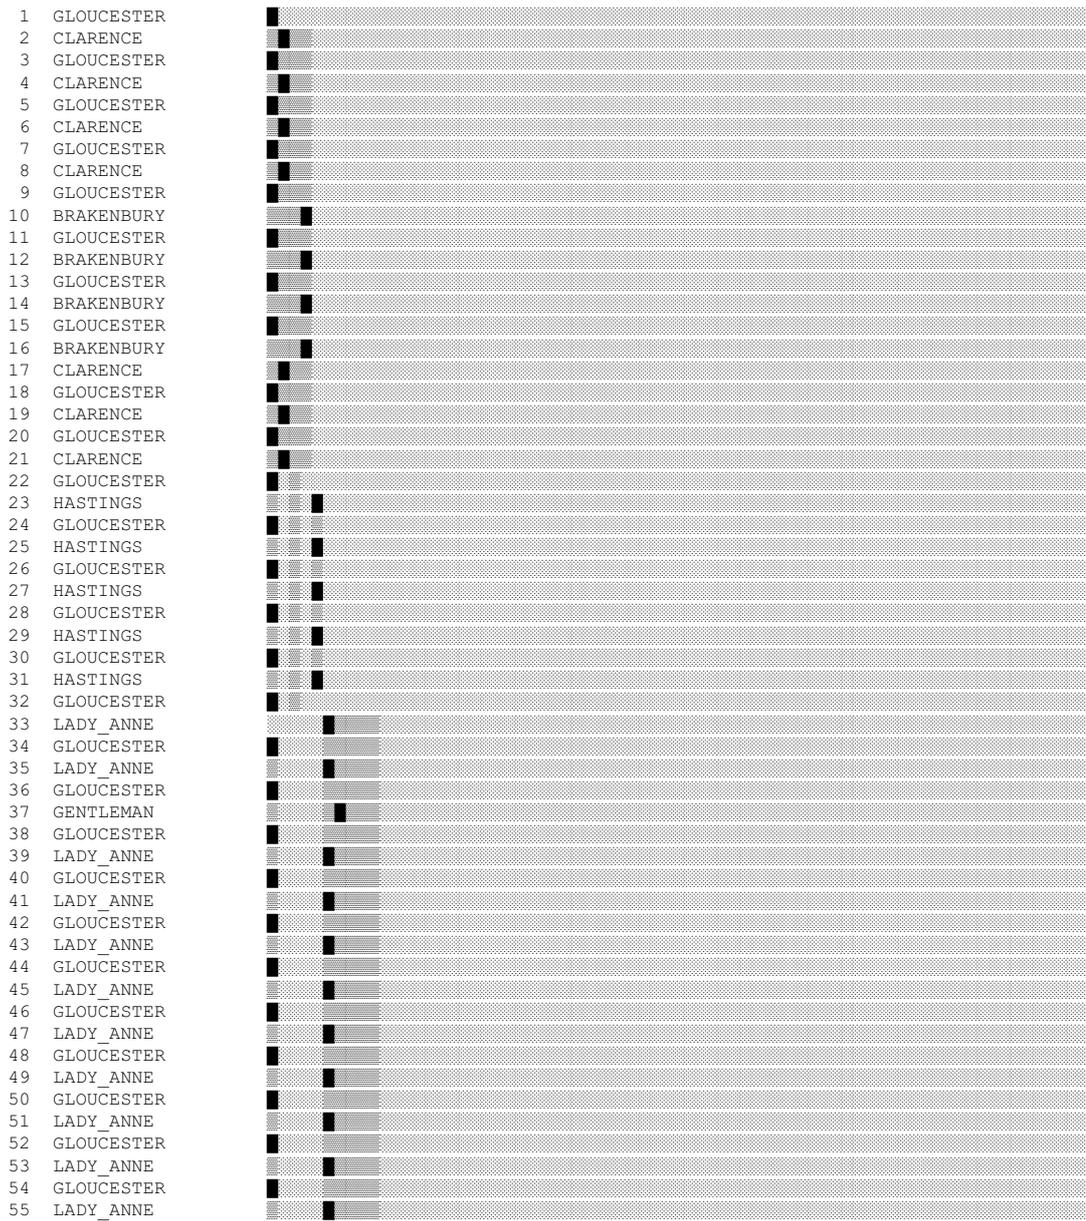

☐ = speaking; ☐ = present; ☐ = absent; ☐ = aside; The death of a figure is indicated by |.

The figures have each a vertical column which tells of the degree of participation.

As the play develops the configurations become visible, likewise configurations changes and their lengths. (see Manfred Pfister. *The Theory and Analysis of Drama*, Cambridge: University Press, 1988, pp.164)
